Dear Readers!

Through this first newsletter of 2018, I wish a very happy new year to the readers. The new year invites us to struggle & strive for a better Pakistan and improve upon the indicators of the previous years which showed a generally better level of awareness in our masses against corruption and resultantly better ranking of our beloved country amongst the community of world nations fighting against corruption. It goes without saying that corruption steals the vital resources from our economy, thereby leaving the general public in deplorable conditions.

NAB has played significant role in nation building by preventing corrupt practices and has successfully imbibed into the minds of present generation the destructive effects of corruption in society. NAB Sukkur, carrying the banner of accountability, is committed to the rule of law, high levels of trust and a well developed society.

Corruption is a blot on the face of our nation and NAB (Sk) team is resolute and focused in its efforts to mitigate it from our beloved soil.

Pakistan Zindabad!
